2010 Scrapbooking Crop for Autism Fundraiser

All proceeds to benefit the Autism Society of America Central Illinois Chapter (ASACIC), a 501c3 organization.

Autism is a neurologically based developmental spectrum disorder that affects 1 in 110 children. Though the spectrum of severity is wide, all individuals with Autism share common afflictions in their ability to communicate and participate socially. ASACIC strives to develop and promote services to meet the ever-growing needs in Central Illinois for training and services for individuals with Autism. Illinois is currently ranked 48th in the country in its ability to serve those on the Autism spectrum with appropriate and adequate services. ASACIC's goals are to actively support its members by providing support group meetings, offering financial stipends to parents for educational seminars and safety related items, creating social opportunities for our families to network and experience the outside world in an environment conducive to autistic needs and more.
